Continuation of Substance of Interview including description of the general nature of what was discussed: MM recently received RCE of this allowed case, looks like RCE was filed 11/03 and lost, replacement RCE papers faxed 5/12/04. Replacement fax mentioned 2 things not found with the fax: "complementary copy of previously submitted 1449," and the Debrus reference cited in the new IDS. After consulting with WM, it was concluded that the "complementary copy" was the same as a 1449 listing Keller patent etc., which was filed long ago but apparently never got mailed to applicant after signing. Re missing Debrus reference, MM was able to download copy so no further action was required from WM. Next action should include signed copies of both 1449s.
